Re: **Identity Preservation (IP) Statements**

Identity Preservation (tracking the details of agricultural shipments so that the specific characteristics of each shipment is known) and Identity Preserved (designation given to such bulk commodities marketed in a manner that isolates and preserves the identity of a shipment, presumably because of unique characteristics that have value (particularly with agriculture GMO products) otherwise lost through commingling during normal storage, handling and shipping procedures) is not applicable for zinc oxide.

Regards,

John J. Stourac
